SUMMARY

Senior Software Engineer with 5 years of experience delivering end-to-end web solutions using React, Node.js, Next.js, and NestJS. Skilled in developing scalable applications and services across modern JavaScript and cloud ecosystems. Experienced with AWS, Python integrations, and RESTAPI design. Strong background in Agile development, CI/CD practices, and clean, maintainable code. Adaptable to diverse technologies and complex project requirements.

EXPERIENCE

Senior Full-Stack Developer

CharmAI Technologies

- 03/2025 - Present
- Delhi, India
- Built internal banking dashboards using **React**, **Node.js**, and **AWS**, integrating dynamic charts and graphs
 - Developed search APIs and UI components using **OpenSearch** and **DynamoDB**
 - Created a **Probabilistic Matching Engine (PME)** to detect duplicate customers using fuzzy logic and rule-based thresholds
 - Implemented an **Advanced Search API** with nested query support and a custom query builder interface

Software Engineer II

Misemind Technologies

- 08/2022 - 02/2025
- Delhi, India
- Worked on an EdTech platform offering textbook solutions, essay writing, and homework assistance. Contributed as a full-stack developer using **Node.js**, **NestJS**, **Next.js (TypeScript)**, **MySQL**, and **AWS** in a microservices-based setup.
 - Integrated **IPQS** to block fraudulent signups using VPNs and fake email domains, reducing suspicious registrations by **30%**
 - Built robust APIs using **AWS Lambda**, **SQS**, and **Node.js** to handle core flows like registration and payments
 - Developed background jobs for content migration and similarity detection using **OpenSearch**
 - Supported the launch of the **Student Financial Aid (SFA)** feature, improving access for students needing support

Software Developer

Misemind Technologies

- 08/2020 - 08/2022
- Delhi, India
- Started career as a full-stack developer on an e-commerce platform, working with **Node.js** and **AWS** in a serverless architecture.
 - Developed backend services using **Node.js** and integrated with **AWS Lambda**, **SQS**, **SNS**, and **CloudWatch** for event-driven workflows and monitoring
 - Used **FFmpeg** to process media assets (rotate, compress) in real time, enhancing performance and content consistency
 - Built modular, reusable **React components** with a focus on separation of concerns and scalable front-end design

EDUCATION

High School 12th

Govt School, Delhi

04/2015 - 06/2016

Delhi, India

%

74.4 / 100

Bachelor's in Computer Science

DCRUST University

08/2016 - 09/2020

Haryana, India

GPA

7.7 / 10.0
